

LGOIMA responses received 27 May 2024

Metis is the consultants proposing both the DRYBASIN and the WETLAND.

These are two of the many emails. We are unsure who the ‘one resident’ is and who the ‘mostly have the community on board’ are. Perhaps on Friday these persons will identify themselves.

Subject: RE: Williamson Pond drawings

Hi Brian,

Thank you – we mostly have the community on board. There is one resident who is still not entirely happy with the wetland idea, but we can’t quite hold up a project for one person!

No worries if you/S7(2)(a) L... are too busy this week. To keep things moving, we may just go out to tender now with the existing design. We’ll then incorporate your feedback into the drawing set for construction. Hope that is OK?

Ngā mihi,

This second email is also of interest. Who are the ‘residents’ who provided feedback. The Wetland proposal has been kept secret?

S7(2)(a) LGOIM...

Thanks for the call last week. As discussed, we have updated the drawing set based on feedback from residents and TCDC. Please find the updated version attached. We’d greatly appreciate any design feedback you can offer us. Feel free to call if you’d like to discuss further. Thanks for the help!
